Cookie policy · Version 3 · effective from 3 November 2026

The Polish version is binding; the English version is provided for information only.

What changed in version 3

- The site no longer stores any cookies — we removed the `pc_lang` file (v2).
- Visit statistics are counted by Plausible Cloud in the EU without cookies.
- Version 3 applies to the privacy policy and the cookie policy together.

This policy describes cookies and similar technologies on the ProcessCraft website before launch. The controller is Craft Code sp. z o.o., ul. Wieniecka 6, 03-634 Warszawa, KRS 0001207722, NIP 5243056931.

1. What cookies are

Cookies are small files that a website stores in your browser. They can be strictly necessary for the site to work or be used for analytics or marketing.

2. Cookies we use

None. The site does not store cookies or other data on your device. You choose the language version by the address (English at `/`, Polish at `/pl/`) and the site does not remember it. The `pc_lang` file from version 2 of this policy has been removed.

3. Cookie-free statistics

We do not use analytics or marketing cookies. We count visits with Plausible Cloud (EU), which does not use cookies, does not store anything on your device and does not store your IP address. Our server's technical logs contain your IP address for no longer than 30 days for security purposes — see the privacy policy (§6, §7).

4. Changes

If we introduce cookies that require consent, we will ask for it before using them.

5. Settings

The “About cookies” page explains that the site stores nothing on your device; there is nothing to set. If an old `pc_lang` file from the previous version of the policy remains in your browser, the site no longer reads or sets it — you can delete it in your browser settings.

6. Contact and language version
